

GUILHERME GHISE

iOS Developer

ghiseguilherme@icloud.com

linkedin.com/in/guilhermeghise

Software Engineering student and current trainee at the Apple Developer Academy, currently focused on development for Apple platforms (iOS, iPadOS, watchOS). I was part of the development team behind the Food Swap app and am looking for an iOS development internship to begin my career in the field.

| Experience

FOOD SWAP

iOS Developer & Cofounder

JUN 2025 — PRESENT

Porto Alegre, RS

- Structured the project from the ground up using UIKit, applying MVC architecture, integrating gesture-based interactions, UserDefaults, and clean development practices.
- Participated in continuous research to define and refine the app's user flow, contributing to a dynamic and intuitive decision-making experience.
- Deep teammates collaboration, conducting extensive research to create a meaningful, intuitive and responsive user experience.

APPLE DEVELOPER ACADEMY

iOS Development Learner

FEV. 2025 - PRESENT

Porto Alegre, RS

- Participation in talks about technologies, methodologies, tools, design, and development techniques for the Apple ecosystem.
- Development of real projects; collaboration with multidisciplinary teams to create innovative applications; focus on user experience, technical development and agile practices.
- Collaborate closely with designers and other iOS developers, conducting extensive research to deliver an intuitive and responsive user experience.

GRUPO ZAFFARI

Software Developer Intern

FEB. 2024 - DEC. 2024

Porto Alegre, RS

- Contributed to SAP ERP projects by developing customizations and integrations using ABAP, supporting core business processes.
- Gained practical experience in back-end development, while also expanding front-end skills through the use of SAP Fiori.
- Collaborated with cross-functional teams to deliver tailored solutions within enterprise systems, reinforcing technical and analytical capabilities.
